Notes

JavaScript is required for the application to function optimally. If not enabled, certain functions will not work properly.

Cookies: The browser must be set to allow cookies and/or explicitly allow 3rd party cookies for CheckFree RXP to function.

Screen resolution: 800 x 600 VGA or higher

Windows Display Properties Settings should be 96 dpi (Windows default).

Browser Text Size should be Medium.

Category Definitions

The CheckFree RXP product is tested at varying levels using different browser/OS combinations. The level of testing determines the support category to which the browser/OS combination is assigned. There are 4 browser/OS categories:

- **Supported** – All functionality of the product has been tested and successfully meets functional and design requirements.
- **Allowed** – All major functionality of the product has been tested and successfully meets functional requirements. Some design deficiencies may occur.
- **Blocked** – This browser has known issues with CSP product(s) and possibly with other web sites as well. A notification splash page will be displayed advising the user that browsers in this category cannot be used with the application and provides the user with a list of appropriate browsers. Access to the application will be denied.
- **Unsupported** – Browser/OS combinations not specified in one of the other categories default to Unsupported. The product has not been tested with unsupported browser/OS combinations. Browser/OS combinations in this category are not widely used as determined by usage statistics for the browsers.
